When speaking with parents

- ✦ Present an overall attitude of openness and a desire to be supportive.
- ✦ As you do with any new family, it is good to get a sense of the role that faith plays in their life. Remember, also, though, if they have not been able to attend Mass regularly, it may be because they are very de-energized from dealing with disability in their family. A welcoming community can go a long way to helping them participate more.
- ✦ Let the parent(s) know that in order to provide as positive an experience as possible, certain information is very important. It is also helpful to determine if the "Attends Mass" program is the right choice for now, or if other options would be more beneficial.

1. Do you attend Mass with your child? If yes, explain the experience please. If not, why?

2. What is your child's diagnosis and how do you think it relates to attending Mass as a family?

3. What are his/her special interests?

4. What are his/her special gifts?

5. Challenges?

6. Describe his/her social relationships?

7. What methods of communication are used?

8. What have been effective learning strategies?

9. What are good motivators?

10. Are there any inappropriate behaviors?

11. What are possible triggers of inappropriate behavior?

12. What are helpful responses to inappropriate behavior?

13. What is helpful for holding his/her attention?

14. What recommendations are made on his/her IEP?

It is important to recognize and respect the confidential nature of such a document. Again, let them know that the reason for requesting it is to improve the quality of the experience for their child. A conversation with the person's teacher can be very helpful. Also, often teachers want to help. Particularly as s/he moves into "Participates in Mass", there are ways the teacher can facilitate the development of Mass behaviors.

15. Does she/he have any diet or environmental issues?

16. Does she/he have any medical issues to be aware of?

17. Do you have any other children? How do they relate to each other?

18. Is there anything else you would like to share about your son/daughter?
